

SEAN VINCENT VIEN V. VIÑAS

Computer Engineer | Machine Learning Engineer
0919-964-2276 | vinas.seanvincentvien@gmail.com | Github | LinkedIn

SUMMARY

A detail-focused and result-driven Computer Engineer with several educational experiences with Artificial Intelligence (AI), Machine Learning (ML), Internet of Things (IoT) architecture, and Edge Computing. Demonstrates strong academic excellence alongside hands-on leadership experience managing student organization finances, large-scale campus events, and cross-functional technical projects. Seeking to leverage technical expertise in software engineering, embedded systems, and machine learning deployment.

EDUCATIONAL BACKGROUND

UNIVERSITY OF THE EAST | MANILA

Bachelor of Science in Computer Engineering (BSCpE)

Recto Ave., Manila

June 2026

- **Relevant Courses:** Data Structures and Algorithms, Database Management System, Object Oriented Programming, Embedded Systems, Internet of Things, Machine Learning, Artificial Intelligence
- **Graduated:** Magna Cum Laude | **GWA:** 1.32
- **Recognition:** College Distinguished Graduate | Leadership Awardee for Men

MACHINE LEARNING & IoT PROJECTS

THE SMOKi PROJECT | *Design Project* | Project Head | To be Published

Design and Development of an IoT-Driven Vehicle Smoke Emission Classification System using Convolutional Neural Networks with Data Analytics Management.

- Developed an end-to-end computer vision pipeline for vehicle smoke emission classification system using **CNN-based model**, specifically, **YOLOv8** for **Edge Computing: Raspberry Pi 5 + HAILO-8**.
- Gathered, labeled, and preprocessed image and environmental datasets from the IoT Device.
- Trained and evaluated the ML model using **Python, PyTorch, and Scikit-learn**.
- Conducted comparative analysis to optimize classification accuracy and robustness
- Integrated analytics dashboards and implemented privacy-preserving image processing
- Engineered a **Machine Learning Model Capable of Classifying Smoke Color** (e.g. Black / White)

THE AEROBAND PROJECT | Project Head | To be Published

An IoT-Powered Wearable for Real-Time Air Quality Monitoring and Pollution Detection.

- Designed and prototyped a wearable IoT device for real-time air quality monitoring using Arduino R4.
- Utilized Air Quality Sensors: BME680, MiCS-6814, and PMS7003.
- Processed gas and particulate sensor data for pollution detection and trend analysis.
- Applied data cleaning and exploratory data analysis techniques to environmental datasets.

MACHINE LEARNING COMPARATIVE ANALYSIS

Fire Alarm Status Prediction Using an Environmental Parameter-Based Classification Model

- Built classification models using Multinomial Logistic Regression, K-NN, Decision Tree, and Random Forest.
- Evaluated model performance using cross evaluation, K-Folds, and performance metrics.
- Analyzed environmental parameters influencing prediction outcomes.

UEnventory | Localized Web Application | Project Head

Inventory tool for Computer Engineering students

- Developed a database-driven inventory system using PHP and MySQL
- Designed data schemas and implemented CRUD functionality

ARDUINO 101 | Seminar and Workshop

Resource Speaker

- Conducted a seminar and workshop teaching First and Second-Year students the basics of embedded systems using Arduino UNO and various sensors.

TECHNICAL SKILLS

MACHINE LEARNING: Supervised Learning (Logistic Regression, Random Forest, Decision Tree, K-NN, Gradient Boosting), Computer Vision (CNN, YOLO), Classification, Model Training & Evaluation.

PROGRAMMING & DATA ANALYTICS: Python, SQL, C++ (IoT & Embedded Systems) , Data Preprocessing, Exploratory Data Analysis, Data Visualization.

LIBRARIES & FRAMEWORKS: Git/Github, Scikit-learn, Numpy, PyTorch, Linux Fundamentals

DATABASE: MySQL

PROFESSIONAL AND MANAGEMENT-RELEVANT: Technical Documentation, Team Management

WORK EXPERIENCE

HIGHLY SUCCEED INC. | *Internship*

Mandaluyong City, Metro Manila

Quality Assurance and Project Management Intern

June - July 2025

- **Quality Assurance:** Improved project reliability by performing end-to-end testing and managing a detailed bug-tracking lifecycle in Jira, utilizing Excel to document and report on quality metrics.
- **Project Management:** Assisted in cross-functional collaboration on system validation and documentation and maintaining rigorous meeting records to align project goals.

LEADERSHIP EXPERIENCE

UE COLLEGE OF ENGINEERING | *Department of Computer Engineering*

SMX Convention Center

University Representative | Project Head

September 2025

- **Duty:** Applied advanced engineering principles and technical problem-solving skills to successfully compete at a multi-university level.
- **Duty:** Represented the university in various external technical and academic competitions against other institutions.

SOCIETY OF COMPUTER ENGINEERING STUDENTS (SCpES)

UE - Manila

Vice President for Workshop and Trainings

S.Y. 2025 - 2026

- **Duty:** Facilitated hands-on training sessions in Emerging Technologies, including ML, IoT, Embedded Systems, and 3D Printing.
- **Project Leadership** | *Project Head*
 - **Circuit Minds:** A Computer Engineering Quiz Bee Competition
 - Oversaw the curation of technical quiz questions and physical venue logistics.
 - **Gotta GIT Advanced!:** Next Level Training and Workshop.
 - Led the project from conception to execution, managing curriculum design for advanced Git commands and ensuring technical delivery.
 - **3D in Theory!:** 3D modeling seminar.
 - Facilitated the seminar's technical direction, by managing the seminar flow.
 - **Digital to Physical:** 3D Modeling and Printing Workshop
 - Managed the end-to-end execution of the workshop, supervising the technical instruction of slicing optimization, material selection, and post-processing.

ENGINEERING STUDENT COUNCIL (UE-ENSC)

UE - Manila

Business Manager

S.Y. 2025 - 2026

- **Duty:** Responsible for gathering sponsors on every event and outside negotiation with other entities that will benefit the engineering student body.

UE COMISSION OF ELECTIONS (UE-COMELEC)

UE - Manila

Student Commissioner for CENG

S.Y. 2024 - 2025

- **Duty:** Managed election logistics, enforced electoral guidelines, and monitored the voting process within the engineering college.

AWARDS AND RECOGNITIONS

MAGNA CUM LAUDE College Graduation <i>Silver Medal</i>	PICC - Pasay City 2026
COLLEGE DISTINGUISHED GRADUATE AWARDEE <i>Gold Medal</i>	PICC - Pasay City 2026
LEADERSHIP AWARDEE FOR MEN <i>Plaque</i>	PICC - Pasay City 2026
ACADEMIC EXCELLENCE AWARDEE <i>Certificate of Recognition</i>	UE - Manila S.Y. 2025 - 2026
EXEMPLARY PERFORMANCE IN OFF-CAMPUS COMPETITION <i>Certificate of Recognition</i>	UE - Manila S.Y. 2025 - 2026
1ST RUNNER-UP, PACKETHACKS X HACKTHECLIMATE HACKATHON <i>Certificate of Recognition & Trophy</i>	SMX Convention Center 2025
TOP 10 MOST OUTSTANDING COMPUTER ENGINEERING STUDENTS <i>Certificate of Recognition</i>	UE - Manila S.Y. 2023 - 2025
SPECIAL MERIT AWARD FOR OUTSTANDING INNOVATION <i>Certificate of Recognition</i>	UE - Manila S.Y. 2023 - 2025
SPECIAL MERIT AWARD FOR EXCELLENCE IN ACADEMIC AND SCHOLARLY OUTPUT <i>Certificate of Recognition</i>	UE - Manila S.Y. 2024 - 2025
DISTINGUISHED MERIT AWARD FOR EXCELLENCE <i>Certificate of Recognition</i>	UE - Manila S.Y. 2024 - 2025

CERTIFICATIONS

PYTHON DEVELOPER <i>Course Certificate</i>	Sololearn.com 2024
SCRUM FOUNDATION PROFESSIONAL CERTIFICATION (SFPC™) <i>Course Certificate</i>	CertiProf 2024
